## A THOUSAND FANS SEE TWINS BURY RUSSELLVILLE IN HITS AVALANCHE

**Albany-Decatur Capture Opening Game of A-T League 10 to 2**

**RUSSELL TWIRLS FINE GAME, 6 HITS ALLOWED**

**Mott is Hammered for Four Runs in the Opening Stanza**

Before one thousand rabid fans, the Twins hopped off to a dandy start in the pennant chase in the Alabama-Tennessee league yesterday afternoon by overwhelming Russellville 10 to 2 in a base hit avalanche.

The Twins clinched the contest before it was fifteen minutes old, when Lewis and Craddock walked to start the last of the first. Beard tried to send them down, missed and drove one to deep left for three sacks, Craddock and Lewis counting. Carter followed with a double to left and Beard came over. McDuff singled to right and Carter rang up another counter.

The breaks of the game went against the Twins here and prevented further scoring. With nobody down, McClain attempted to sacrifice and bunted a fly into Mott's hands, McDuff being doubled off first. Lindsay wound up the round by grounding out to first.

Russell, Morgan County product, was effective throughout and held the Russellville clan to six widely scattered hits and retired eight of the visitors via the strike out route. Two of the six hits were scratches.

Every member of the Albany-Decatur aggregation, with the exception of Craddock and McClain hit dafely, Gibson leading with three hits, and Beard got two. While the locals made five errors, two of them were excusable because of the condition of the playing field and the local fans had no worry that the local squad would not be able to hold its own with any team in the league when given good pitching. McClain made a nice running catch in center.

Some doubt as to the eligibility of Ware was raised yesterday when Umpire Zemek reported here, it was stated, with orders barring spitball pitching. It was thought the orders were due to a misunderstanding, inasmuch as all the larger leagues permit spitball pitching by twirlers who began their careers as such, the intention being to prevent the education of a new crop of moist ball.

## Mrs. Pipkin Dies in Malden, Mo.

A telegram conveying the sad intelligence of the death of Mrs. Martha Pipkin at Malden, Mo., on yesterday will be received here with much sorrow. Deceased visited here several times where she was greatly beloved. She was 87 years of age and a consecrated member of the Methodist church and is survived by a son, J. W. Pipkin of this city and several other children who reside at distant points. Mr. Pipkin returned recently from the bedside of his mother.

## BOWEN HAS WATCHED GROWTH OF LABOR DURING THIRTEEN YRS.

As the Alabama Federation of Labor is entering its fourteenth year no member of it has greater cause for a feeling of satisfaction, at its continued growth than Lewis Bowen its Secretary and Treasurer who for thirteen years has remained in continuous service. In speaking of the steady growth of the federation Mr. Bowen said, that when the first convention was held thirteen years ago only about twenty-five delegates were in attendance. He said that on the first day of the present convention two hundred and thirty-five regular delegates were registered, and in addition a number of fraternal delegates.

He also called attention to the largely increased number of crafts that are represented now, as compared to a dozen years ago. Mr. Bowen said that the reputation for generosity and hospitality gained by the Twin Cities was high, and that much would be expected of the "Twins" in the future.

## TAX REDUCTION IN AMERICA POSSIBLE BY BRITISH DECISION

(International News Service) WASHINGTON, May 17.—A marked reduction in the tax burden of the American people will be possible as a result of the British government's decision to begin meeting interest payments on the British debt of \$5,000,000,000 due the United States, treasury officials declared today.

Secretary of the Treasury Mellon has been informed of the British government's program to provide for the payment of about \$250,000,000 annually upon the debt. He was advised that the inclusion of such an item in the British budget for the year, forecasts England's purpose to enter discussions for this payment at once.

**POLICY UNCHANGED**  
(International News Service) WASHINGTON, May 17.—Development in Europe during the past 48 hours, including the apparent open break between the premiers of France and Great Britain over the Silesian question, have not served to alter the course of this government, nor to change its general policy, it was stated today in official circles.

Officially it was said the United States will continue to regard the Silesian question as a matter of wholly European concern, and as such the representative of the government can have no part in the settlement nor the discussions pertaining thereto.

**SITUATION EASIER**  
(International News Service) LONDON, May 17.—The proposed conference between Premier Lloyd George and Premier Briand, upon the Upper Silesian issue, will be abandoned to avoid any misunderstanding with Belgium and Italy, it was learned from official sources this afternoon.

The Anglo-French situation was described as much easier today, but Premier Lloyd George is understood to remain adamant upon his declaration that Germany must have a square deal in Upper Silesia. The supreme council will meet Saturday or Monday at Paris or Bolgne, it is understood. Ambassador Harvey will represent the United States when the council meets.

## Facisti Victors in Many Cases

(International News Service) ROME, Italy, May 17.—A number of the parliamentary candidates of the facisti were elected in the general election on Sunday, it was revealed by the returns today. The facisti is composed chiefly of former war veterans.

The results are still incomplete, but the returns indicate that the new chamber of deputies will include 300 Democratic liberals, 80 Catholics, 100 moderate Socialists, 15 communists, 45 Republican independents and 4 Germans from Tyrol.

**PREMIER CONFERS**  
LONDON, May 17.—Premier Wites, of Poland, has gone to the Upper Silesian front to induce Korfanty, the Polish leader, to end the Polish uprising so that a peaceable settlement of the Polish-German territorial dispute can be arranged, said a Warsaw dispatch today.

Lewis Bowen, Secretary of the Alabama Federation of Labor

## GREATER USE OF THE GOLDEN RULE IS PLEA MADE BY DR. JAMES VANCE

**Nashville Orator Asks for Greater Faith Between Brotherhood of Men**

**MUST MAKE UP MINDS TO QUIT HATING OTHERS**

**Cannot Build Brotherhood on Segment of Humanity, He Says**

"The Golden Rule as applied to the large relations of life" was the subject of Dr. James I. Vance's address to the Alabama Federation of Labor Convention last night.

"You cannot build brotherhood on a segment of humanity. We had as well make up our minds to stop hating each other" were two wise sayings of the distinguished visitor, taken from hundreds of others just as wise and good.

"The Golden Rule is the best religion there is. It is more, bear in mind, than a mere rule of human action. It is more than a mere law. It is a conclusion. It follows one of the great 'therefore' of the Bible. It is an epitome of the teachings of the Prophets. It is the sum of what all men have said who ever talked for God. The Master has told many truths, and it was as if He had said 'as those things are true, therefore' whatsoever ye would that men should do to you, do ye even so to them."

Compares a Saying of Confucius. The following prepared statement was kindly furnished on request by Dr. Vance, and it contains his exact words as used last night when he made a comparison between the Christ's Golden Rule and the "Silver Negation" of Confucius, as the speaker called the Pagan's great statement somewhat similar to the real golden rule.

"Confucius has something, which at first glance looks very like the golden rule, but upon close scrutiny is found to be, not so much a golden affirmation as a silver negation. Confucius said: 'The things you would not have done to you, do yet not to others.' But there is a big difference between this and the golden rule of the Man of Galilee, when He said: 'Whatsoever ye would that men should do to you, do ye even so to them.' It is the difference between a 'don't' and a 'do', between a negation and a position; between restraint and power; between a barrier and a dynamo; between a breach-band and a power house." And as if for good measure the good Doctor added: "True religion is vastly more than repression. It is inspiration and dynamic." It was declared that in the first place, in order to apply the golden rule, we must be able to put ourselves in others' places—"that is heavenly geography," said the speaker. Second, we must be able to see things as we never saw them before—"that is celestial psychology". In the third place, Dr. Vance made it plain, that the Golden rule must have a "program of deeds". He said "heavenly geography, and celestial thinking were valueless, without heavenly deeds."

**Pleads for Better Things.**  
The speaker later took up that part of his subject which applied to "relations" and especially to "large relations". He was said that little neighborly acts, such as sending portions of food to neighbors, little kindnesses etc., were all very well in their way, and they applied the Golden Rule in only a small way. It was said that it was when people were called on to apply Christ's rule to big business on the large relations that they staggered and fell back. In was in the course of Dr. Vance's appeal for Golden rule action as between races as between nations, and as between Capital and Labor, that he revealed himself as a great prophet of a better age and a better world. It was in this connection that he gave utterance to the words in the first of this story: "You cannot build brotherhood on a segment of humanity. We had as well make up our minds to stop hating each other."

Dr. James I. Vance

## ANOTHER BATTLE ON LARGE SCALE LOOMS ON FRONT

(International News Service) WILLIAMSON, WEST VA., May 17.—Renewal of the fighting on Tug river front on a big scale appears certain within a day or two. Everything points to May 19—anniversary of the "battle of Mattewan"—as the crucial day when the mountain warfare is to be resumed.

A great army of striking miners is massing in Mingo County, West Virginia, with the avowed purpose of opening a furious offensive against the non-union workers in these counties, according to word reaching Sheriff Pinson. It is stated that all men from Kermith, in the West, to Wareagle in the East, have been ordered to mobilize. This stretches the front to a distance of 50 miles.

Reports reaching here today are that all of the union miners from the surrounding counties will be recruited to aid their brothers who are waging the fight against the coal operators and non-union miners who are at work.

## NO TROOPS

(International News Service) WASHINGTON, May 17.—The question of declaring martial law in West Virginia and Kentucky was again laid before President Harding today by Secretary of War Weeks, after receiving renewed requests from the governors of the two states for Federal troops.

Secretary Weeks said prior to the cabinet meeting that he did not think that the situation at the present time warrants sending troops to West Virginia or the declaration of martial law. The Secretary had talked over the telephone with Governor Morgan of West Virginia and had communicated by telegraph with Governor Morrow.

He stated he did not believe that troops should be used in anticipation of further trouble.

## HARDING FAVORS "STRONG" NAVY

(International News Service) WASHINGTON, May 17.—President Harding is understood to have informed Republican Senators that he favors the maintenance and development of a strong American navy, able to afford the United States every protection in an emergency, it was disclosed today when the Senate resumed consideration of the \$500,000,000 navy appropriations bill.

Republican leaders predicted that the administration's naval policy would receive the support of a substantial Republican majority in both branches of Congress.

Its passage by the Senate by the end of this week was forecasted.

## Child is Named To Chinese Post

(International News Service) WASHINGTON, May 17.—Richard Washburn Child has been named by the President as ambassador to Italy, it was announced at the White House this afternoon.

The nomination of Child will be sent to the Senate this afternoon, together with that of Dr. Jacob Gould Schurman, President of Cornell University, as ambassador to China.

## STILL TAKEN

Revenue officer C. E. Howell and Deputies R. E. Stewart and J. D. Hardy captured yesterday two stills, one 60-gallon and one 80-gallon capacity of the good "old stuff" and 3,000 gallons of beer. The capture, the officers stated, was made several miles south of the city.

Principal addresses were made by Robert White, of Birmingham Typographical Union, and by Dr. James I. Vance, of Decatur, an old neighbor of Dr. Vance up in Tennessee, was to have introduced the distinguished guest to the convention and had agreed to do so.

Crowded House owing to a night recently. When her mother went to her to ascertain the cause of her screams she said: "Oh, I dreamed that Satan and all of his family were coming into the house."

## Seay, Held For Death of Wife, Admits Killing

W. F. Seay, Florence, man brought to the Morgan County jail here early this morning charged with the murder of his wife in Lauderdale county, does not deny that he slew the woman.

Alternately standing and resting on the hospital cot in his cell at the Morgan County jail, Seay this morning told the revolting story of the killing. Occasionally a maniacal gleam would cross his countenance and his story was broken by frequent pauses, as if the narrator was collecting his scattered wits.

He wound up his story of the slaying with the declaration that his wife was exceedingly hard to kill and condemned marriage as a general thing and became a pronounced advocate of free love.

Seay declared the killing was preceded by a number of marital difficulties. In Florence Sunday afternoon, he said, he and a party of friends had started on a kodaking trip, but that his wife wanted to go along, which "spoiled the party."

He declared that later his mother

and his wife talked with him about going on a "trip."

"They wanted to send me to a 'buggery,'" he said. Seay seemed under the impression he had practically convinced his mother he was sane, but his wife proved more difficult.

"We went for a walk," he said. "And then we sat down on a rock. I put my arms around her and began to talk to her." Here Seay declared he charged his wife with an unprintable offense. This led to further argument, he declared and finally he placed his arms around her neck and choked her.

"I decided to give her another chance," Seay said. "But when she stood up, she was game again."

Seay said he then killed her. The defendant declared he surrendered last night at his mother's home in Florence. He said he went there to give himself up.

He wanted an immediate trial, he claimed, and requested that Fred Johnson, a Florence attorney, be notified, as he wanted Mr. Johnson for the defense.

Seay asked the newspaper reporter if it was permissible for him to aid in his defense.

## REINFORCEMENTS ARE HURRIED INTO IRELAND TUESDAY

(International News Service) LONDON, May 17.—With approximately 40 dead in the unprecedented outburst of guerrilla warfare in Western and Southern Ireland, the British war office was reported today to be rushing heavy reinforcements of troops and artillery to combat the Irish Republican army.

According to information from an authoritative source, the war office is sending 24 batteries of guns and 5,000 artillerymen. Ten thousand infantrymen were reported to have been moved into Ireland within the past ten days. There are now four English troops and artillery in Ireland than at any other time in the history of the country.

## Eradication Pink Weevil Possible

(International News Service) WASHINGTON, May 17.—Federal aid to supplement state funds to compensate cotton growers in areas where non-cotton zones established to eradicate the pink boll weevil is recommended in a report adopted today by representatives of the cotton growing states who have been conferring here with officials of the Department of Agriculture.

The report declares eradication of the pink boll weevil, the most deadly of the cotton pests, is now possible. It endorses the policy of the Federal horticultural board for continued prohibition of cotton growing in areas infested by the pest.

According to the report, it will take years of careful safeguard on the part of cotton growing states to rid the country entirely of this relative of the boll worm, although the pest at present is confined to areas in the states of Texas, Louisiana and New Mexico only.

## Sheffield Wins

SHEFFIELD, ALA., 17.—Approximately 2,000 people witnessed the opening game of the Alabama-Tennessee League, played here Monday afternoon between the Tri-Cities team and Columbia Tex., the locals winning by a score of 10 to 4. The game was featured by hitting runs.

Crowded House owing to a night recently. When her mother went to her to ascertain the cause of her screams she said: "Oh, I dreamed that Satan and all of his family were coming into the house."

507 Farley Building

## BAPTIST EXPANSION WAS RAPID DURING THE PREVIOUS YEAR

Dr. W. P. Wilks returned last night from Chattanooga where he has been attending the sessions of the Southern Baptist Convention. He reports an enrollment of more than 5,000 messengers and one of the greatest Conventions in the history of Southern Baptists. 175,000 baptisms were reported during the year and a great evangelistic campaign is to be launched during the next year.

At the mid-week meeting at Central Baptist Church, Wednesday night, there will be held an after-the-convention service at which prominent visitors are to speak. Rev. C. L. Skinner, of San Antonio, Texas, has already arrived to visit his daughter, Mrs. O. M. Roun, and Rev. Wallace Wear, of Cordele, Ga., arrives today to visit his father, Rev. R. T. Wear.

All are invited to attend the service and hear these distinguished visitors.

## Baseball Meeting at "Y" Tonight

A meeting of officials and players of the Twin City Baseball league will be held tonight at the Y. M. C. A. at 7:30 o'clock. President W. W. Rahm announced this afternoon. As important matters relating to the schedule are to come up, a full attendance was urged.

## MIGNONS GO FORTH TO GATHER JUNK.

(International News Service) BOSTON, May 17.—Two "gypsies" went around Arlington Heights collecting junk, but were not bothered by the police.

Mrs. Frank W. Garrett, chairman of the ways and means committee of the Friday Social Club of the Arlington Heights Park Avenue Congregational Church, and Mrs. George A. Clark, another active member of the club, were the "gypsies" in question.

This was their second endeavor to thus raise money for the club, which does much good local charity work. The two women were escorted by Samuel Wax, a local junk dealer.

As they went about the streets they announced their coming with bells and other noise-making devices. The junk dealer purchased the junk, which included old clothes, magazines, old papers, etc., and paid the two "gypsies" instead of the persons from whom he obtained the articles.

The habit of drinking and eating hot foods and liquors is largely responsible for the bad teeth of modern people.

## 3,266 New Members Added to Rolls During the Past Year

**RESOLUTION GIVES AID TO DESTITUTE MINERS**

**Secretary Offers Congressional Measure Introduced by Congressman Huddleston**

Secretary Louis Bowen, of the Alabama Federation of Labor, today reported into his annual report, delivered before the convention here, a congressional resolution offered by Congressman Huddleston, empowering the Secretary of War to use naval stores for relief of destitute miners in the Birmingham district.

Secretary's Bowen's report was the feature of the morning session of the convention, the delegates hearing a number of other addresses and taking up routine matters.

During the past year the Alabama Federation of Labor increased by 3,266 members, Secretary Bowen reported, including the addition of 57 locals to the organization.

Many entertainment features are planned for the visitors. Local picture houses have been thrown open to the delegates and a dance will be given at the Chamber of Commerce. Dr. James I. Vance, of Nashville, delivered one of the principal addresses last night, declaring "you cannot build a brotherhood on a segment of humanity. We had as well make up our minds to stop hating each other."

The Tuesday morning session was called to order at nine o'clock, President Harrison presiding. He at once called for the annual report of Secretary Treasurer Bowen. This report was received by request. Mr. Bowen then read the report of the Executive Council. The reports of the several vice-presidents were also read and referred to the proper committees.

One of the Thrills of the Convention. What promised to be one of the thrills of the Convention was terminated by the magnanimous action and unselfish attitude taken by M. E. Bargainer, Machineist Delegate from Montgomery, and a member of the present States Legislature. A difference arose in which an overwhelming vote of the delegates sustained the contention of Mr. Bargainer and his friends, but owing to legal difficulties connected with the Constitution of the State Federation of Labor it seemed that no definite action could be taken. At this juncture Mr. Bargainer arose and in a ringing speech said that he and his friends would withdraw their claims in the interest of harmony. At the close of this speech Mr. Bargainer received an ovation.

**Speech From Campbell.**  
D. I. Campbell of Norfolk, Va., representing the International Typographical Union, began a speech at eleven o'clock, setting forth claims of the printers for a forty-four hour week. He said that it was not true that the printers demanded forty-eight hours pay for forty-four hours work, that the printers could do all of the work demanded of them by their employers and the public in a forty-four hour week, and that the short hours would greatly prolong the lives and usefulness of the printers.

**Entertainment Features.**  
It was announced at the Convention that tonight a dance will be given at the Albany Chamber of Commerce rooms complimentary to the convention delegates and their friends. It was also announced that the Star Theatre in Decatur and the Delite Theatre in Albany would be thrown open to the delegates, free tonight. Tomorrow night the Princess will be open free to the delegates.

**Bowen Report.**  
In his report Mr. Bowen said:

"One of the most important duties of the Secretary of any Federation is to stay in touch with all Local Union Central Bodies, Union Labor Leagues and to secure the affiliation of all with the Federation of Labor and in so doing all branches of the Labor Movement will be in direct touch with all subjects pertaining to their welfare. In this connection your Secretary has at all times put forth every effort possible to make the Federation

## AMERICA STILL THE LAND OF OPPORTUNITY

Though the scorners have sneered at, and the willing defamed America, as no longer the land of opportunity, but as just the abiding place of the grafter and the heartless money grabber, the facts do not sustain any such conclusion. With rare exception, men who know of what they speak, who know themselves, and something of the world they live in, will agree, that they have become to be in character and accomplished, in the neighborhood of what they sincerely wished to be, and attempted to accomplish in a financial way. An interesting case in point of an unknown and friendless man coming into his own in America, is that of "Jim" Davis, twenty eight years ago, a steel worker in the puddling department in a Birmingham steel mill, but now James J. Davis, Secretary of the Department of Labor, in this country of ours, the land of opportunity. Mr. Davis came of Welsh stock and was born in the little country of Wales in the British Isles. He therefore came into America as a foreigner and friendless. He just a penniless boy and began work as a steel mill laborer in Pittsburgh, Pa. Six years ago he is reported to have visited Birmingham, to meet a number of his old fellow workers, and that he pointed out his old rooming house in the steel mill district. Since leaving Jefferson county twenty eight years ago, Mr. Davis became deeply interested in the fraternal organization called the Loyal Order of Moose. He became a leader in building up the membership of that organization, and was finally elected to the highest office within the gift of its membership. Besides his membership work, Mr. Davis originated a constructive scheme, which resulted in the order of Moose purchasing a large tract of land in Illinois upon which was erected suitable buildings, in which now live the old and feeble, and the dependent young of the membership of that great order numbering near two million members. Has he not benefited his race, and his work? And if he has prospered, who will begrudge him his good fortune. The point is not being attempted that every one who will, can become rich like Mr. Davis, or occupy as exalted a position as he now holds under the government, but it is contended that with rare exception every man who so wills, may come into his own in America. The door of opportunity has not been closed for any, as a general rule, except for those who have closed it upon themselves. It is said that a reserve energy is resident in all normal persons, sufficiently potential to enable them to win over all opposition. We are taught that in the ordinary activities of life, we use only about 15% of our potential ability. In other words the homely saying is still true, especially in America that "where there is a will there is always a way."

## A GREAT CAUSE REPRESENTED

It is the claim and pledge of organized labor, that with its cause is wrapped up the highest and best interests of all men. In so far as the leaders of the movement have proven true to this pledge—in so far as they have taken a broad and patriotic view of labor's mission, no one will feel disposed to dispute their claims. The organizations represented in the present convention, cannot begin too quickly to exert their influence for the common good. This nation and the state have been called upon in late years to pass through many trying periods, and the time of trial has not passed. The tasks that confront every organization and every thoughtful citizen are becoming steadily more difficult and more exacting. We are living in a much more strenuous time, perhaps, than has any other generation of people. The responsibilities, now, do not rest alone on the shoulders of the few, as was largely the case in the past—though individual leadership is still open to the right man. Because men have begun to move forward all along the line, never was there a time when intelligent concerted action was so much in demand. Among other things, if organization is to serve all the people, two things are required: wise leaders and intelligent followers. And there is one thing that both leaders and followers must thoroughly understand, viz., that not for long, can one class or condition of men prosper at the expense and to the hurt of other classes and conditions of men. President Harrison's utterances indicate that he is strongly for defending the rights of labor; but in no case for radicalism and destruction. He is evidently the same kind of an advocate of labor as Samuel Gompers, the veteran President of the American Federation of Labor. And Mr. Gompers's version of the privileges and responsibilities of labor for a genera-

tion, have been considered constructive, and in general acceptable to most people. It is not without significance, that Dr. John Royal Harris has appeared on the convention program, and that his subject was "Industrial Peace." Dr. Harris is one of the best and most favorably known publicists of the South. He is respected not only for his ability, but for his love of fair play and a square deal. Industrial peace is a consummation devoutly to be wished for, longed for and prayed for. With the same fervor that peace loving people desired the ending of hostilities in the world war so peace between employer and employe is devoutly wished for at this time throughout the length and breadth of the country. Dr. James I. Vance of Nashville spoke to the delegates and to the general public last night from the subject: "The golden rule as applied to the large relations of life." Dr. Vance is the peer of any minister of his day and as a pulpit orator he has few equals. He is also widely known as a publicist and author. Many of his writings have reference to industrial problems.

## THE SILESIAN MUDDLE

The insurgent uprising in Silesia presents a grave situation which may require strong means to right.

While ostensibly acting without the direct authority of the Warsaw government, Korfanty is acting as a Pole and for the interests of Poland.

That the situation should have passed beyond the control of the Inter-Allied Commission, which is charged with the maintenance of order in that district, is not surprising. There never has been that close harmony between the British, French and Italians in the Silesian area which would guarantee unity of action.

The stakes that are being played for are great. Next to the Ruhr, the mines of Silesia are the richest in Europe. In the possession of Germany, they would aid materially in the settlement demanded by the Allies. In the possession of Poland, that country would be well on its way to financial and industrial stability.

Under the terms of the treaty of Versailles, the inhabitants of Upper Silesia were called upon to indicate by vote which nation they desired to belong to. The vote in the entire district was overwhelmingly in favor of Germany, but the vote by communes gave the richest of these to Poland. The treaty stipulated that the vote should "be taken in each commune," and that the result should be communicated by the commission to the Allies with recommendations as to boundaries.

Article 97, paragraph 4, of the treaty reads: On the conclusion of the voting, the number of votes cast in each commune will be communicated by the commission to the principal Allied and associated powers with a full report as to the taking of the vote and a recommendation as to the line which ought to be adopted as the boundary of East Prussia in this region. In this recommendation regard will be paid to the wishes of the inhabitants as shown by the vote and to the geographical and economic conditions of the locality. The principal Allied and associated powers will then fix the frontier between East Prussia and Poland in this region, leaving in any case to Poland for the whole of this section bordering on the Vistula, full and complete control of the river, including the east bank of the river as may be necessary for its regulation and improvement.

There have been charges made, and there seems to be some foundation for them, that the Germans colonized Upper Silesia immediately before the election. Be that as it may, the fact stands out that, even with the colonization, the vote in the richest communes went heavily against the Germans. But the task which confronted the commission was complicated by the geographical result. In some instances, communes voted for allegiance to Germany and, if the expressed will of the inhabitants were carried out, there would be German colonies set like islands in Polish territory.

In the decision of the principal powers, some wrongs will be done. It will be impossible to lay down a boundary line which will please both nations, but both nations must be made to understand that they have agreed to abide by the decision, whatever that decision may be.

The claims of Poland to the rich regions, which voted by heavy majorities for Polish sovereignty, will be heard sympathetically in America, but this sympathy may readily be changed to disgust if Polish agitators of the Korfanty type attempt to emulate the antics of D'Annunzio.

That Germany is largely responsible for the strife in Silesia is probable in view of the fact that Berlin propagandists have been busy spreading false reports of the allied decision before it has been made. There has been no official announcement of any decision of the Silesian question, and the latitude which the treaty gives to the jury precludes the possibility of an accurate forecast.

The duty of Poland is to sit tight and discourage by every means at her command all efforts to increase the tension in Middle Europe.—Nashville Tennessean.

Attorney Wheeler of the Anti-Saloon league thought he said something mighty smart when he shouted: "Beer is not a tonic, it is Teutonic!"

Another case in point of the working for the law of compensations—what is Fort Leavenworth's eternal gain is Russia's eternal loss.

## GREATER LOVE HATH NO MAN

He gazed into her eyes of blue  
And swore by stars above her,  
That he forever would be true  
And never cease to love her.  
The one great object of his life  
He said would be please her,  
If she would only be his wife—  
He was a glib-tongued geezer.  
She took him up and time sped by,  
Now three the family numbers,  
But when the baby starts to cry,  
He goes right on and slumbers.

## THE MODERN PUZZLE

Chug-Chug! Br-r! Br-r! Honk!  
Honk! Gilligillug—gilligillug.  
The pedestrian paused at the intersection of two streets. He looked about. A motor car was rushing at him from one direction, a motorcycle from another, a steam truck was coming from behind and a taxicab was

speedily approaching.  
Zip-zip! Zing-glug!  
He looked up and saw directly above him an airship in rapid descent.  
There was but one chance for the poor man. He was standing upon a manhole cover. Quickly seizing it, he lifted the lid and jumped into the hole just in time to be run over by an underground train—Los Angeles Times.

Some folks believe themselves accomplished musicians who have only learned to change needles on a phonograph.

## IN WHICH MR. CUMMIN CLEARS UP A DEEP MYSTERY.

(From the New York Tribune.)  
To the Editor of the Tribune:

Sir:—For the information of "Syrcacuse Girl," who inquires in this morning's Tribune why New York girls don't keep the seams of their stockings straight, here's the answer. So far as New York girls are concerned, the corset, with its appended garters, has gone where the woodbine twined, along with the bustle, starched petticoats and fleeced-lined underwear. Lacking these former corset-attached garter supports, the girls have discovered that a stocking will stay up if properly rolled down from the top. It isn't easy to explain the process without a diagram, but the secret of rolling it is the first giving it a proper twist around. This brings the back seam of the stocking around to the front. I. SEYMOUR CUMMIN.

Playing in a band gets one up early Sunday mornings for practice.

What has become of the old fashioned bookkeeper who used to chew a little tobacco for toothache?

It takes a forehanded man to buy his coal now.

A Chicago man, who recently was declared a bankrupt, blames prohibition for his failure. He formerly operated a home for inebriates.

Boss to stenographer—How do you spell "income?" You've got here "i-n-c-u-m."

Stenographer—Good Heavens! How did I come to leave out the "b?"

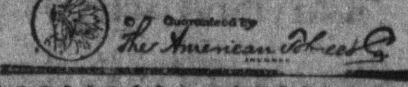

## "Measure Up."

The habit of measuring up now will save you time and trouble later on. Life's loads are not going to get any easier to carry as population increases. There will be keener competition and more people to compete. The only hope for you will be such developed skill that you will naturally lead in the things you attempt. That means you will make trial of every talent and so train what you have that no effort is spent in vain. This develops the most determined effort and fitness in the fellow who is willing to do his best. Then as the bigger problems come with the years you will be trained in doing your best under every circumstance and success is bound to hover over your efforts. There is no better time than the present to begin. Keep going and make every new idea contribute to your growth and you are bound to succeed.

human intelligence.—Washington Star.

**ICE CREAM SUPPER.**  
The Women's Missionary Society of the Ninth street Methodist church will give an ice cream supper on Tuesday, May 17, beginning at 7 o'clock on the church lawn.—Adv.

Biliousness is a disorder involving the stomach, liver and bowels. It opens the door for disease. Prickly Ash Bitters is the right remedy. It drives out bile and impurities and makes a man feel bright, vigorous and cheerful. Price \$1.25 per bottle. Sold by all druggists.—Adv.

**"Brazilian Grass."**  
This is a name incorrectly applied to a substance used in the manufacture of a cheap kind of hats known as Brazilian grass hats, and also as elly hats. It consists of strips of leaves of a palm, which are imported to Great Britain and elsewhere for this manufacture, chiefly from Cuba.

**Identifying Himself.**  
Howard's father owned a picture show, so he was always admitted free. However, one evening a new ticket taker stopped him at the door and Howard explained by saying: "I am my father's boy."

**THERE is a big difference between Calumet and all other Baking Powders.**

**First—You see it in the cost.** Calumet is sold at a moderate price.

**Then—you observe it in use.** Calumet has more than the usual leavening strength, therefore less is required.

**Next—you notice it in raising quality—in the evenness—lightness and texture of your bakings.** They look better—finer grained.

**"Some Biscuit!"**

**CALUMET BAKING POWDER**

**Finally—what a difference in the taste.** There is a deliciousness, a goodness that can be had in no other manner. Biscuits, pies, cakes, muffins, doughnuts—never were so tasty—so all-satisfying.

And then there is the satisfaction of knowing that Calumet is made in the World's largest, best equipped and cleanest Baking Powder Factories.

Good wholesome bakings can be made only of good materials, no other way, so use only good baking powder and good plain flour (not self-rising flour).

**Calumet Biscuit Recipe**  
4 cups of sifted pastry flour, 4 level teaspoons Calumet Baking Powder, 1 level teaspoon of salt, 2 rounding table-spoons of butter or lard, 1/2 cup of milk, 3/4 cup of water. Then mix in the regular way.

Mr. and Mrs. Sam Byers are visiting at the home of Mrs. E. M. Odom.

Mrs. Richard Duke of Jackson street is recovering from a serious operation for appendicitis at Benevolent Society hospital.

Mrs. R. F. Stuckey will leave this afternoon for Newton, Ala., to attend the graduating exercises of her son, Rev. R. W. Stuckey, who will graduate on the eve of the 19th at Baptist Collier Institute.

Mr. and Mrs. Roy C. Martin, of Birmingham, are visiting relatives and friends in Decatur.

Mr. and Mrs. J. C. Chandler left today for a visit to Addison, Texas.

Mrs. Earl Jones will entertain at cards complimentary to Mrs. Vella Robinson, a recent bride, and three girl graduates, Misses Mary Harvey, Bessie Cobb and Madeline Troup. Friday at 3 o'clock at the home of her parents, Mr. and Mrs. D. C. Almon on Gordon Drive.

Mrs. J. N. Simpson and S. A. Owen left this morning on the early train for Birmingham to spend the day.

**PERSONALS**

W. S. Stevens continues quite ill at his home in West Albany.

R. F. Sewell of Hillsboro was in the city today.

J. W. Aldredge, of Gadsden, is attending the convention, as a delegate from Carpenters Union No. 2268 for which he is the business agent.

**REPORT OF PARENT-TEACHER ASSOCIATION OF SECOND-WARD SCHOOL**  
As this week closes the business of the Association for the present school term, we take this method of thanking the members and ladies of the community for their liberal co-operation; and also the teachers, who have worked so faithfully both in the interest of our children and in the Association, and especially Miss Taylor, who has by her kind and congenial way endeared herself to so many mothers. It is with regret that we see her leave our community probably never to work in our midst again; for in the present age, there are so many positions calling for teachers with her efficiency and experience.

Nor would we be doing our duty not to mention Miss Warren, who has charge of the primary work and has lived in our community and discharged her duty so faithfully for so many years. We feel that she has built a record for herself stronger than words can express.

The other members of the faculty some of whom have just started on their chosen career, have worked creditably while among us.

Since our future generation depends upon the training of our children of today to make useful men and women of tomorrow, we trust that in the future they may all be guided by the Divine Hand; and that each ensuing year, they may enjoy their work more and more.

We also want to thank Mayor E. C. Payne for his kindness to us on different occasions.

It has been through the co-operation of the patrons and teachers that the following report has been made possible:

Total amount raised this year \$380.72.  
Total amount expended \$286.44.  
MRS. CARL MANDY, Sec.

**MISSIONARY SOCIETY CENTRAL M. E. CHURCH**  
Mrs. B. A. Turner opened the doors of the hospitable home to the Women's Missionary society of Central M. E. church Monday afternoon, May 16th. Mrs. J. L. Proctor read the 91st Psalm, so full of comfort to those who love God, and keep his commandments. Mrs. Sturdivant lead the prayer, "Samuel's Life" was the lesson for study. Mrs. Proctor gave many practical thoughts and suggestions to mothers on the early training of their children and dedicating them to God, and his service in tender youth, also pointed out the imminent danger of parents' failure to control and demand obedience to God and His law. A business session followed. A dinner was voted to be served at the rooms of Chamber of Commerce for the captians and their workers on Friday night before the great Christian Educational drive May 29th. At the close of the business session the "Lord's" prayer was repeated in concert. A delightful social hour followed. Light refreshments were served, Mrs. Minor, Mrs. Mayes and Mrs. Ankers assisting.

Mrs. J. J. Rose, Pub. Chm.

**Doggie Surely Lost.**  
Junior's dog, Rex, had a collar with his name and address engraved on it. One day the boy let the dog go out. Later he discovered that he had forgotten to put the dog's collar on. "Oh!" said the child, "now he's sure to get lost. How will he ever know where he lives without his collar?"

**Crowded House.**  
Little Mary awakened in fright one night recently. When her mother went to her to ascertain the cause of her screams she said: "Oh, I dreamed that Satan and all of his family were coming into the house."

**Jud Tunkins.**  
Jud Tunkins says that for practical purposes a philosopher and a student isn't near as much practical use in society as a person that plays a fair game of bridge.

**Long Life for a House Fern.**  
In the living room of an Oxfordshire (England) country house is a maidenhair fern that has just celebrated its fifty-sixth birthday. It is now some two feet across and very fine, fresh and young in complexion, 2 year or two ago it seemed to be falling into the sere and yellow leaf and was threatened with its first illness. But after consulting with a local specialist the owner (who has tended her plant herself for 56 years) gave it a dose of cod liver oil. The brownness that threatened to invade the whole plant soon disappeared under the treatment, and it is now as vigorous and as green as ever. This maidenhair has, therefore, not only lived 56 years, but is still in the stage of active growth and development.

**Fiji Islands.**  
Fiji comprises a group of over 200 islands (about 80 inhabited), lying between degree 15 and degree 20, south latitude, and between meridians 177 and 178 west longitude in the south Pacific. The largest island is Viti Levu, area 4,053 square miles. The total area of the Fiji group is 7,083 square miles. According to the latest census taken in April, 1911, the population was 133,541, the Europeans numbering 3,707. There are 2,144 East Indians on the islands. The remainder of the population consists of natives. The capital is Suva, on the south coast of Viti Levu. The European population of the town is about 1,000.

**CARD OF THANKS.**  
We wish to express our sincere and heartfelt gratitude and appreciation to the kind friends who extended to us their sympathy and service in our bereavement in the sickness and death of our mother, the late Mrs. Susan Simpson, we thank those who sent the beautiful florals.

MR. and MRS. J. I. STOCKTON  
MR. and MRS. G. A. SIMPSON,  
MR. and MRS. W. R. SIMPSON.

**NOTICE**  
A cordial invitation is extended to the ladies of the town to attend Women's Trade Union League meeting this afternoon, 6 o'clock, at Masonic Theatre.

This is an auxiliary of the Union, and wives of union men are especially urged to be present.

Prominent speakers will address the meeting.—Adv.

**Goldfish in Ohio River.**  
Many tons of goldfish were caught in the fishing grounds of the Portage river at Port Clinton, O., recently. According to some of the fishermen, the first scattering of the fish was found in 1913 after the big floods of Ohio and the lake regions, and it was thought at that time that the fish may have been liberated from some of the park and resort aquariums, by the overflowing of the flooded artificial ponds.

The fish are not of the glass bowl variety, but seem to be more of a carp species, and will measure several inches and weigh as much as a half-pound each. They are placed in cars and brought here to be loaded into express cars and shipped in tanks, alive, to the New York markets, where they are sold to the retail and wholesale.

Growth of Labor  
Crafts in State  
Given by Bowen

(Continued From Page 1.)

100 per cent along these lines and it is with a good deal of pleasure that I report that our membership during the past year has been increased approximately three thousand two hundred and sixty-six members, this increase representing fifty-seven Local Unions. One Building Trades Council, One Central Labor Union and One Woman's Trade Union League. This increase has been due to development of a better understanding on the part of the workers on the importance of becoming members of an organization which has for one of its main purposes the securing of State Laws to protect and promote their interest.

The following congressional resolution, Mr. Bowen embodied in his report, as introduced by Congressman Huddleston at Washington.

Whereas, due to the refusal of the mine operators in the coal fields of Alabama to reemploy former miners and mine operatives who ceased work because of a labor dispute with their employees, some ten thousand miners and mine operatives are now unemployed and can not find employment, and they and their wives and children, all together aggregating some forty thousand persons, having been evicted from their homes by the mine operators and are in a state of destitution and suffering for food, clothing, and shelter: Therefore be it,

Resolved by the Senate and House of representatives of the United States of America in Congress assembled, that the Secretary of War, be, and he is hereby, authorized and directed to use any available Army stores which may have been declared surplus which may be necessary to supply the immediate and pressing requirements for the necessities of life of coal miners and their families in the Alabama coal mining regions who may be out of employment and unable to secure same.

Chas. O. Kennell of Washington, D. C. spoke, upholding the International Brotherhood of Bookbinders in their present effort to establish the 44 hour week, as did John Schneider of Birmingham, of the International Printing Pressman's Union.

## Afternoon Session.

The Monday afternoon call to order, showed practically every delegate in his place, and bedecked with the attractive convention badges of red, white and blue. The national color effect was attained by the lettering being made in red ink placed on a white ground, while a small silk blue bow completed the scheme. The following standing committees were announced by Secretary Bowen, as appointed by President Harrison, in consultation with the executive board:

Auditing Committee—A. P. Ezell, W. R. McCluskey.

Credentia Committee—W. R. McCluskey, A. P. Ezell, L. Bowen.

Committee on Rules—R. J. Bailey, Chairman; W. M. Logan, J. H. Cox, R. H. Williams, C. C. Kennedy.

Committee on Officers Report—D. C. Ball, Chairman; John K. Brandon, E. N. Willy, L. D. Barfield, J. E. Yarbrough, T. McDonald, W. H. Huoy.

Committee on Grievances—Louis Wolf, Chairman; B. J. McCauley, Jas. Penson, J. E. Segars, L. F. Cardin, W. S. Speigle, H. P. Trammell, Chas. Knight, J. L. Busby, D. B. McNair.

Committee on Resolutions—R. R. Moore, Chairman; Thomas Hammond, Mose Phillips, W. H. Crow, H. K. Laatsch, W. T. Parrish, J. M. Bensinger, E. A. Woodworth, W. F. Hutchins.

Committee on Union Labels—Mrs. D. S. Litton, Chairman; Henry Heidt, Mrs. Olive Phippen, Miss Hattie Steele, J. R. Ryder, T. M. Montgomery, D. C. Jones, A. C. McKnight, T. J. Gleanon, W. R. Thompson, J. H. F. Mosely.

Committee on Constitution—J. A. Lipscomb, Chairman; A. H. Liston, A. C. Fleming, C. C. Odum, L. F. Baird, W. G. Gentry, O. E. Way, H. M. Childs, D. S. Litton.

Committee on Organization—W. E.

Spain, Chairman; James D. Segars, W. M. Wooten, C. Hopwood, F. F. Dreher, W. L. Graves, E. J. Harris, S. G. Eubanks, A. C. Gamble.

The chairman of the last named committee, Ernest Spain, is an old Albany boy who served his time as a machinist in the local Railroad Shops.

The plans for Vocational training for disabled soldiers, as backed by the federal government were discussed at some length. The first speaker being T. O. Hutto of Birmingham, district representative for Alabama, Louisiana and Mississippi labor boards during the world war.

Senator Watt Brown, spoke forcefully, in support of better vocational training, and urged the convention to do all in its power to promote such training, especially among the returned soldiers and sailors.

## Dr. John Royal Harris.

In an address of unusual power, and teeming with useful information on the labor movement, John Royal Harris, entertained the convention for an hour. He took up most of his time, explaining that the full Gospel of Christ, included every consideration that concerned the welfare of mankind. He said that the federated church council demanded no discrimination against the union label, while it did not as yet undertake to say that it should be always used. He explained a number of schemes for solving of the problems continually arising between labor and capital, and that definite plans were on foot now which when put into effect would mean the end of all industrial warfare.

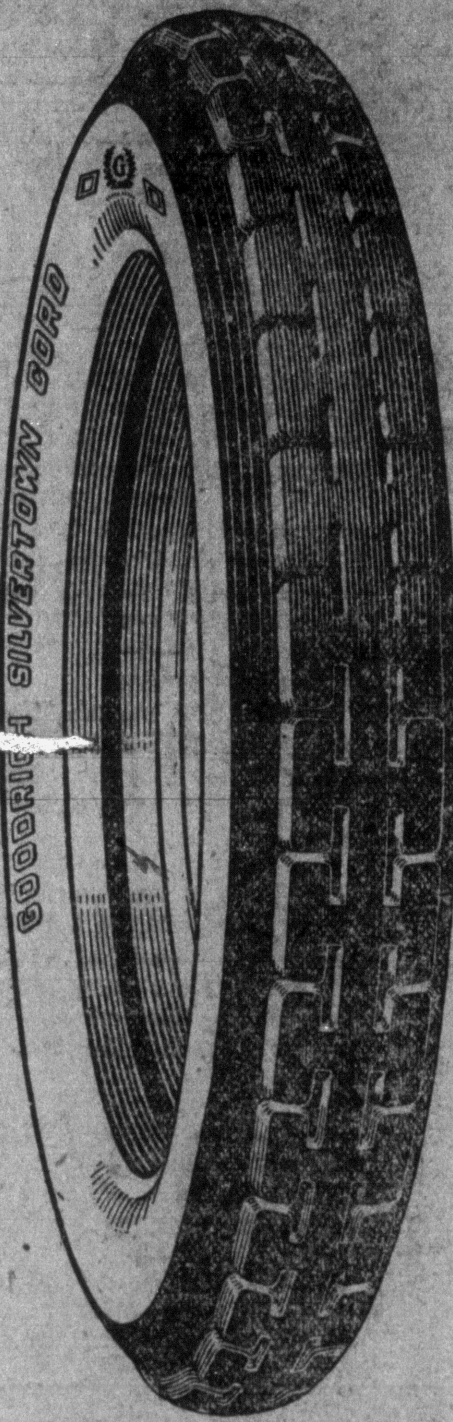

"Strikes have helped bring labor, to the place where it is unafraid and independent," said the speaker amid cheers; "but like warfare strikes should be entered upon only as the last resort."

Absolute arbitration of all differences was advocated by Dr. Harris.

"It is a sin for wealth to be unfairly distributed. It is a sin to work women on the same jobs as men and not pay them the same money that men get. It is a sin to work little children in any industry," declared the speaker amid great cheering.

One of the most popular addresses in point of wit and shrewd attack upon "special interests" was by W. A. Morris, of the Farmers Union. He said among other things "Henry Ford, said he would put the farmers on wheels; but instead he has put them on the 'bum'."

This speaker expressed himself as a skeptic, as regards the recent claim of the Birmingham trolley car company, that the jitney busses, were about to put them out of business.

Yes Silvertown Cords  
are included in the  
20% Goodrich  
Tire Price Reduction

"Best in the Long Run"

Among tires SILVERTOWN is the name that instantly conveys the thought of the highest known quality. Their genuine value has given them first place in the esteem of motorists.

Motor car manufacturers and dealers are quick to emphasize to their prospects that their cars are equipped with Silvertowns—knowing that neither explanation nor argument is necessary.

This makes all the more important the fact that Silvertown Cords are included in our readjustment of tire prices which took effect May 2nd.

THE B. E. GOODRICH RUBBER COMPANY  
Akron, Ohio

Your Goodrich dealer is prepared to supply you with Goodrich Silvertown Cords, Goodrich Fabrics and Goodrich Red and Gray Tubas at the 20% price reduction.

BLAIR NOMINATED  
(International News Service)  
WASHINGTON, May 17.—The Senate finance committee agreed today

to report favorably to the Senate to nomination of David H. Blair, of North Carolina, for internal revenue commissioner.

Confirmation by the Senate of the nomination was predicted by Republican leaders as extremely probable before adjournment today.

I'd walk a mile  
for a Camel

The pleasure is worth it. There's no substitute for Camel quality and that mild, fragrant Camel blend.

The fellow who smokes Camels, wants Camels. That's because Camels have a smoothness, a fragrance and a mildness you can't get in another cigarette.

Don't let anyone tell you that any other cigarette at any price is so good as Camels.

Let your own taste be the judge. Try Camels for yourself. A few smooth, refreshing puffs and you'd walk a mile for a Camel, too.

# OIL! OIL! OIL!

## The Talk of North Alabama Now Is Oil, Oil, Oil

Every farmer thinks that he has oil on his land. Now comes the great problem—How am I going to get some one to drill on my land???

**"THAT IS EASY"**

But it can only be reached in one way unless he wants to spend thousands of dollars in drilling for this oil. Instead of trying to start several oil wells and probably not finishing any, why not drill one deep test well and if we find oil, then all of North Alabama will be prospected for oil.

A few dollars invested in the stock of this Company which is actually in the field with the largest drilling outfit ever set up in North Alabama, will put this well down to oil if it is here and we believe it is here. We are now down over 250 feet deep and drilling every day and expect to start drilling night and day very soon.

If we strike oil in Morgan county it will only be a short time until the entire north Alabama will be prospected for oil. Thousands of people will flock here to invest in oil land and leases. Business conditions will improve and everybody will make money in every line of business. Why? Because Oil has been discovered in your section of the country. Boost the oil game and help to drill this oil well. It means millions of dollars to the Business Men of North Alabama if Oil is found.

Remember this Company is going to drill for oil and we expect to get oil—both in Alabama and in Tennessee. Remember this Mammoth Anticline that starts in Pennsylvania, comes right on down through South Ohio, West Virginia, Kentucky, Tennessee and north west corner of Alabama. We believe that oil in great Pools has already been discovered 35 miles north of Huntsville in Tennessee from the fact that we can pump oil of a very high grade from a 60 foot well that is already drilled on leases owned by this Company.

This well was drilled for water but proved to be an oil well and if proper-

ly handled would probably produce 3 to 5 barrels in 24 hours. We intend to develop this field soon by putting down some test wells and see what is really there. The showings are good for a big shallow oil field and OIL is what we are after. But we want some help to do these things. It takes money to drill Oil Wells—but stop to think what it means to you if we find the OIL!

A few shares of stock in this Company may make you rich and at the same time will be the means of helping to develop a new Oil field.

Don't send your money away to Texas or some other far away Oil field when the chances are just as good right here at home, and possibly a great deal better, thousands of people have trodden over millions of dollars worth of hidden wealth in order to get a place where they thought that they had a

sure thing, but at the same time they were leaving better chances right at home, if they only knew it.

Never in the time of history did this part of the country need help as it does today, and help means money for the people, business for the business man, work for the laboring man, and in order to accomplish these things, you have got to get something that the people want, and there is nothing that they want any more than they do OIL.

And in order to get OIL we have all got to bend our efforts to develop the oil interests of this section, after we have found the Oil, then the rest will be easy, thousands of people will come here to seek investments in Oil leases, Royalties, Land and a thousand other things that will bring money into the country.

Remember this Company has com-

plied with the requirements of the blue sky law of the State of Alabama, and is in shape to do business in a business way, and has the proper equipment to do business with, in other words we have the kind of tools that will go down to the proper depth to get the oil if it is here.

We have casing enough on the ground to go 3500 feet deep and all necessary equipment to go with it to do the work, we have reliable drillers at work at the well, men who understand the work, and who know what to do in case we should bring in a Gusher.

We are organized under the laws of Delaware with a capital stock of \$150,000, divided into 6000 shares at \$25.00 per share, and every dollar that is taken in from the sale of stock goes right in to develop the holdings of this Company. The promoter of this Company has deposited all of his individual stock with the State Security Commission of the State of Alabama, as a guarantee that they will not sell any of their individual holdings until the treasury stock has been sold, this is a pretty good evidence that the promoters believe in this proposition. If we make any money we will have to make it out of the Oil, and not out of the sale of individual stock, like lots of the Oil Companies do, in other places.

**CAPITAL STOCK \$150,000**  
**Shares \$25.00 Each**

**A good way to find out**  
whether tea and coffee are hurting you is to stop using them for ten days, and drink Postum Cereal.

**"There's a Reason"**

#### GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears or to your druggist and get 1 ounce of Parmit (double strength), and add to it 3/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dripping from the throat. It is easy to prepare, costs little and is safe to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.—Adv.

#### MAKES FEET FEEL FINE!

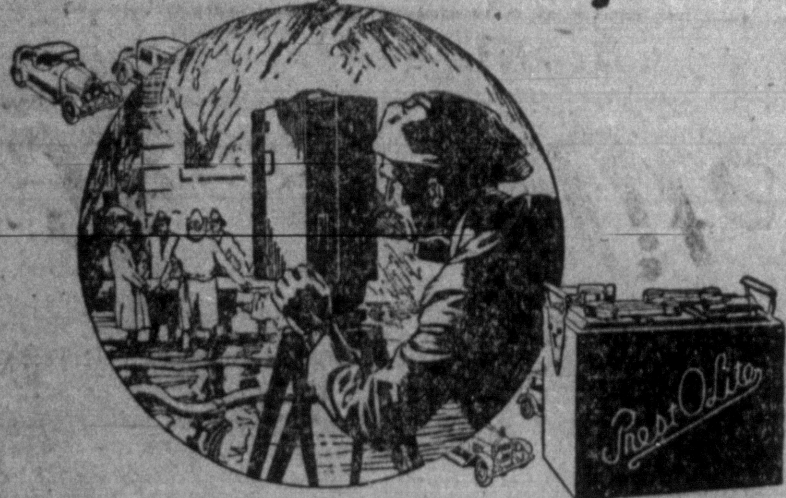

The instant you apply a little strip of soothing Red Top Callous Plaster to that sore, "achey" callous, corn or bunion, you'll forget your foot troubles.

**RED TOP CALLOUS PLASTER**

removes hard growth by painless absorption, takes out swelling, soreness, pain and you walk with comfort from the start. RED TOP is the sure, safe way to foot comfort—it's simple, easy to apply, comforting to wear. Sure relief or money back. Many applications in the "handyroll." Sold by R. E. CHANDLER, Albany, Ala.

## Prest-O-Lite

STARTING & LIGHTING  
Storage Battery

### And He was Out o' Luck

THERE was once a Camera-man who worked for a Movie News-Weekly. And he was assigned to "cover" a big fire. So he grabbed a Camera and Hastened to the Scene. But he ran out of film at a critical moment. And he was Out o' Luck!

Some motorists there are who take a chance with a battery that has no reserve power. And some day they will need a start to pull their motor out of a stall, and the starter will report: "Nothing doing!"

The Prest-O-Lite Battery uses less than one four-hundredth of its power-reserve for a single start—and the generator quickly replaces that.

## NEWS OF MOULTON AND LAWRENCE COUNTY

Much earnest enthusiasm has existed among a number of the best citizens and business men in and around Moulton for the past several weeks in the organization of an oil company to be known as the Lawrence County Oil and Development Company. W. D. Wiesehan, a prominent mill and lumber man, vice-president; W. C. Bragg, Assistant Cashier, of the Citizens' Bank, secretary-treasurer. Interest centers around and early drilling in some point not yet fully agreed upon, but that it shall soon be determined whether Lawrence county will develop into an oil producing section is soon to be determined if the present efforts materialize as it appears they will. The company is securing many leases, and, since it is backed almost exclusively by home men, has the confidence of the local public.

That a community may have a good school if it desires it, is evident from the report of the year at Town Creek, he enterprising little town of the northwest part of Lawrence county. The report shows that including the cost of arranging for a vocational agricultural school to begin work here July 1, 1921, the expenses of the school since last autumn will have been approximately \$9,698.65 of which the County Board of Education will have contributed \$3,283.00 and the rest has been secured locally excepting a 16th section fund of \$300 but including very properly the district three mill tax. Through entertain-

When an energetic hard working man feels unduly tired, half sick, "blue" and discouraged he thinks he is getting lazy. It isn't laziness, the trouble is in the stomach and bowels; they are disordered. To restore energy, vim and activity the right remedy is Prickly Ash Bitters. It is a man's remedy for regulating the system. Price \$1.25 per bottle. Sold by all druggists.—Adv.

ments, picnic, and Community club there was raised \$1,271.00; from monthly incidental fees, \$700.00 and from outright subscriptions to the school, \$810.00. The expenses range from \$60 for library magazines all the way up to Domestic Science equipment at \$104.65 to piano at \$450.00 and desks at \$500.00. The school has been for the past year a seven teacher-school but for the next year will require an eight teacher besides the vocational instructor.

Miss Jean Chappelle, the very efficient Domestic Science and Art teacher of the Lawrence County High School left for her home at College Station, Texas, Thursday.

Judge J. E. Kumpe, was a business caller at Albany-Decatur last Thursday.

Principal A. B. Murphree was in Cullman on business Thursday and Friday last.

Nathaniel Almon, the popular young teacher at Town Creek during the past session spent last week in Florence and Sheffield but is now at home with his parents here for a few days.

Judge J. C. Forney and family are visiting at Huntsville for a few days accompanied by Mr. J. F. Stevenson, first assistant of the Lawrence County High School.

Miss Margaret Stephenson is visiting her sister, Mrs. Myrtle Culbertson, near Nashville, Tenn.

Mrs. Gus Sewell and little son of Hartselle, are visiting relatives and friends in and around Moulton.

Mrs. Elmer Moles has returned home at Albany after several days spent with her father-in-law, Will Moles and family.

Mr. and Mrs. Roy Graham, of Mountain Home, spent several days of the week in Moulton.

### A Woman's Way

"I tried for four months to get my wife to try Mayr's Wonderful Remedy, which I know had helped a friend of mine who also suffered from stomach trouble. She insisted her case was different. I finally had to bribe her with a new dress. The first dose produced remarkable results, clearing up her complexion and restoring her appetite. She can now eat things she hadn't been able to for many years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. S. M. Thompson in Albany, Owl Drug Co., in Decatur and druggists everywhere.—Adv.

### Hospital Notes

Many contributions are coming in for the Sterilizer Fund. One came from faraway Texas the other day—from our old friend and Benevolent Society worker—Mrs. Case. Another was sent from Cleveland, O. All of our old patients seem anxious to contribute.

"Open House Day" at the Hospital, brought a number of visitors, but the severe storm kept the majority of people from coming. It was a great disappointment to the Trustees and the hospital staff, as the hall was gay and festive with a wealth of Dorothy Perkins roses. A table near by held a cut glass punch bowl imbedded in Jackson vine and roses, the trustees serving all who came. There being only one very ill patient, all the rooms and wards were open from cellar to garret, and the work and the needs of the hospital were apparent to all who came.

On Friday, the 28th of May, the Spencer Athletic Club and the American Legion have very kindly offered to play base ball for the benefit of the "Sterilizer Fund" at the base ball park. Tickets 25cts. Do not fail to buy a ticket when approached by some pretty girl.

#### Hospital Report.

Number of patients, 17.  
Number of surgical patients 16.  
Number of medical patients 1.  
Number in wards 11.  
Number in private rooms 6.  
Number discharged 2.

#### Greenwich Master Clock.

By electricity the master clock at Greenwich observatory fires time guns and drops time balls in many parts of England every day, and sends the hour of 10 a. m. to all post offices and railway terminals.—Brooklyn Eagle.

#### No Doubt About His Love.

Bess—"Are you quite sure he loves you?" June—"Love me? Why, he went down on his knees in damp moss with new white flannel trousers on to propose to me."—Boston Globe.
